RM Pattern: Bull Flag

0) Flag Pole (Expansion)
1) Flag Pattern (Consolidation
2) Flag Breakout (Expansion)
3) Measured Move (1:1 Pole Extension)

0 The Flag Pole:
- Suggests an Expansion for a Continuation Setup

1 The Flag Pattern:
- Represents a short-term consolidation prior a Continuation Setup

2 Flag Breakout:
- Implies the start of the a Continuation Setup prior to the Measured Move

3 Measured Move:
- Proclaims a target for the Measured Move based on the initial expansion (Flag Pole)

RM Pattern: Bull Flag

Continuation Setup

0 **Step 1: The Flag Pole to Flag Pattern**

1
- The Flag Pole depends on the Flag Pattern for an ST Consolidation preceding another Expansion (Measured Move)
- The Flag Pattern (ST Consolidation) depends on the Flag Pole to suggest a Continuation Setup

1 **Step 2: The Flag Pattern to Flag Breakout:**

2
- The Flag pattern accumulates 'long-positions' within the ST Consolidation for the Flag Breakout.
- The Flag breakout signals when 'Accumulation' has settled for another expansion (Measured Move)

2 **Step 3: Flag Breakout to Measured Move**

3
- The Flag breakout signals when an 'Expansion' is ripe for a Expansion to an Measured Move
- The Measured Move announces when the 'Breakout' has met its objective for Terminus.

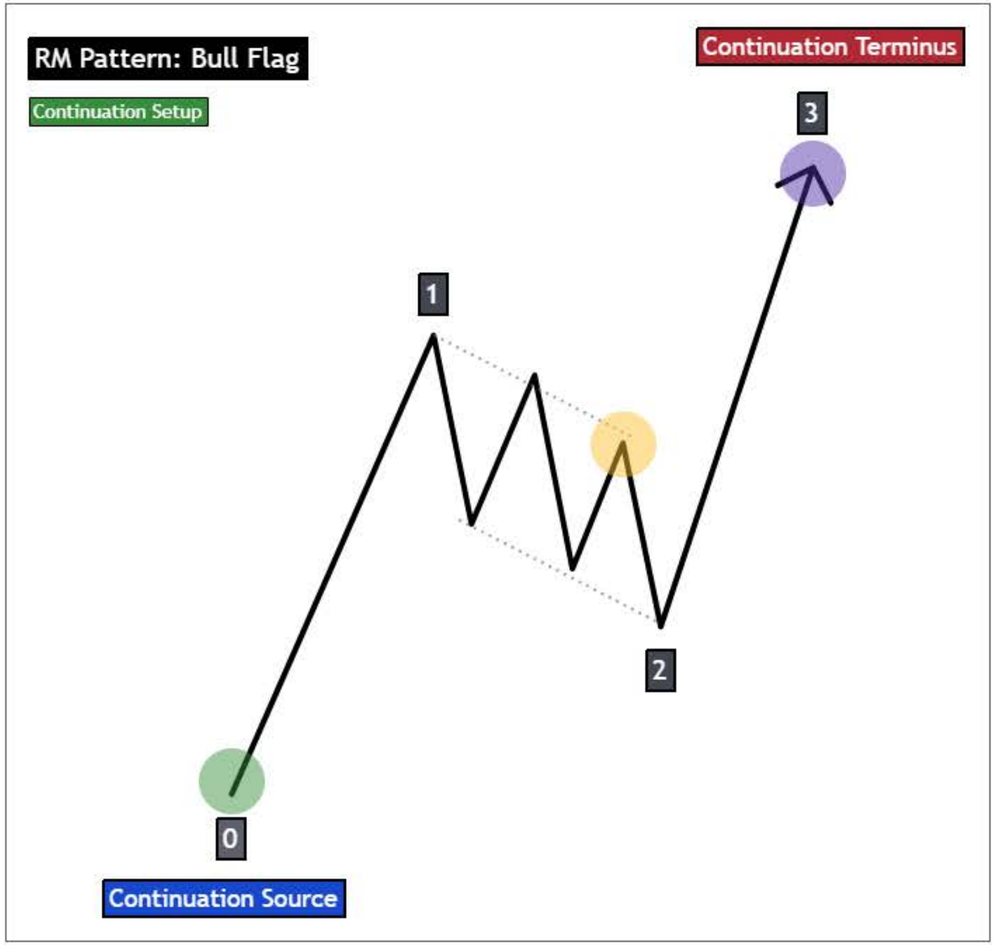
Does this Continuation Pattern Work?

Yes, but it depends entirely on Narrative, Logic and Reasoning.

This unlocks Price Delivery no matter if there is a Bull Flag, Order Block or Fair Value Gap.



SM Narrative:

a) Do we have a higher Draw on Liquidity?

b) Do we have 'time' and 'volatility' to seek the Draw on Liquidity?

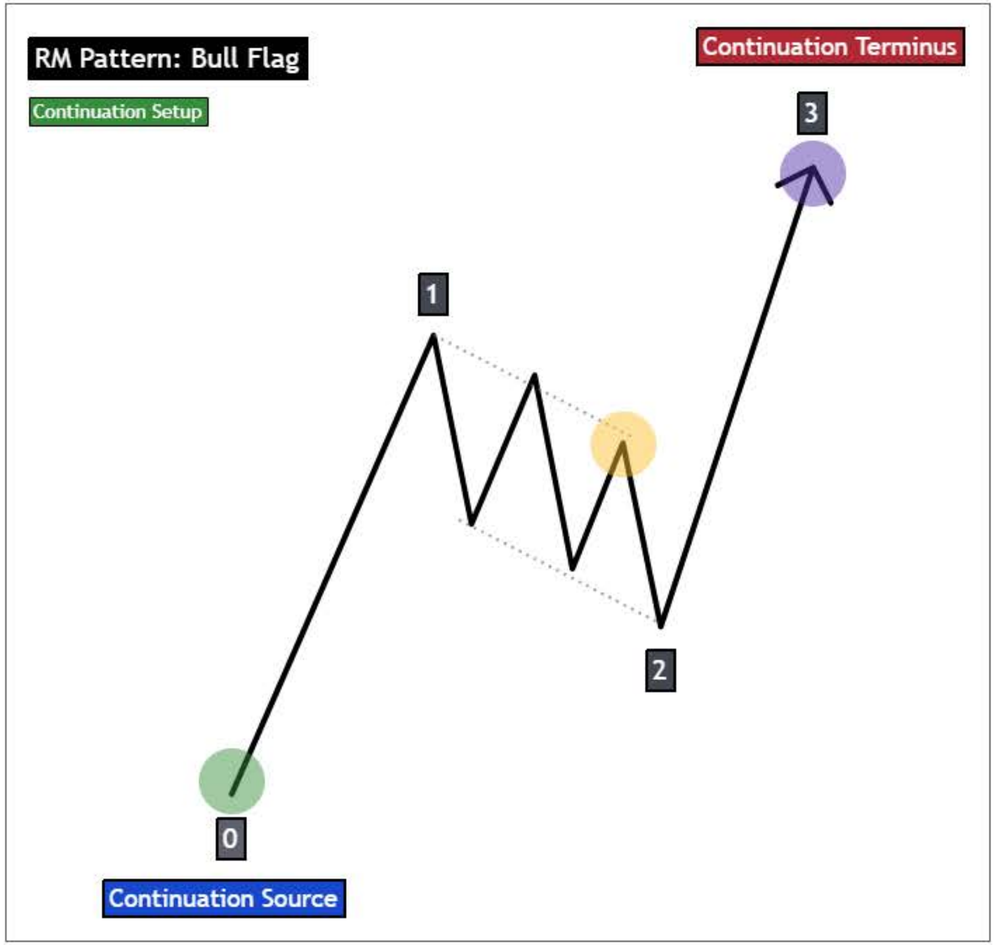
What 'if' this pattern is 'against' the Narrative?

1. The RM Pattern is utilized for Sentiment trap and counter-party Liquidity for SM Opportunity.

2. RM will see a Continuation Setup, SM will use this Opportunity for a Reversal Setup.



SM Narrative:

a) Only anticipate Pseudo Bull Flags at a Premium Condition, Terminus, or Over-extended Price Moves.

b) Always be aware of the present narrative, regardless if you trade SM Concepts or RM Patterns.
